The RCE Request and amendment received 7/28/04 have been entered and claims 1, 2, 21 are currently pending in this application. Please update the specification regarding the continuing data of related applications.

In view of the amendments to the claims and arguments presented, all rejections of record are hereby withdrawn. The references of record do not disclose a composition as claimed made from only *Tenebrio molitor* or *Holotrichia diomphalia*. However, note the new rejection following.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2, 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The present claims are product by process claims but are written in incomplete process format. In claim 1, "during a chromatography process" does not positively recite any chromatography process and therefor lacks antecedent basis. And in claim 1(iii) it is not seen how the fractions would be selected. In claim 21(iv) how the fractions would be selected is not seen. Perhaps a determining phenoloxidase activity of each fraction step may be intended.
